

# First Aid International International Emergency First Aid (CPR/AED)

**The International Emergency First Aid (CPR/AED) Course** is designed to train individuals and company staff that requires Health and Safety. Executive approved first aid at work training including automated external defibrillation.

This course will provide the necessary skills to manage a patient that is unconscious and not breathing normally until the arrival of the emergency services.

This course meets the guidelines of the UK and European Resuscitation Councils for Basic Life Support and the use of an AED.

This course is mapped to the learning outcomes of the Level 2 Award in Cardiopulmonary Resuscitation and Automated External Defibrillation.

## Introduction:

Your instructor is a fully certified First Aid International facilitator who is current with the procedures and knowledge required to ensure you have the best possible learning experience. Each Instructor is registered with First Aid International and renews their status annually to ensure that only current and competent instructors deliver your training and assessment.

## Learning Style:

Each section of the book will guide you step by step through each of the essential skills required to be a competent first aider. Through the process of seeing hearing and doing you will learn how to provide first aid in an emergency both safely and effectively. As you complete each skill you will develop the skills, knowledge, techniques and confidence to respond in an emergency.

## Certification:

Certificates are issued by First Aid International using our Centre Management Information System (CMIS). CMIS provides a quick efficient service to all our clients
