

FIRE WARDENS

Introduction

As a Fire Warden, you may be part of your organisation's Evacuation Team and you will be responsible for ensuring that your area is evacuated safely and quickly in an emergency. This course will provide you with a guide to your daily duties as a Fire Warden.

Course Overview

At the end of the course, trainees will:

- » Recognise the key elements of fire and fire safety provisions
- » Recognise the role and responsibilities of the Fire Warden
- » Identify the steps to take as a newly appointed Fire Warden
- » Distinguish between proactive and reactive duties
- » The responsibilities of a Fire Warden during a fire emergency
- » State the post-fire duties of the Fire Warden.

Course chapters

1. Fire

Introducing the basics – Learn what exactly is fire, classes of fire, the common causes of fire, fire safety risk assessment and fire equipment and measures.

2. Role & Responsibilities

This section will cover the role and responsibilities of a fire warden, fire marshals and proactive versus reactive.

3. In a Fire Emergency

Learn about emergency evacuation and managing people in an emergency.

Who will it benefit?

This course will benefit managers or employees who have been appointed as Fire Wardens within their organisation. This course will give newly-appointed Fire Wardens advice and sets out the daily duties one takes on.
